HIGH VOLTAGE
ELECT. CONT. L.L.C.

Preface

High Voltage Electrical Contracting LLC was established in the year 2017 as an electrical contracting company specialized in substation services, cable laying and other related services. Our area of operations also include MEP services which consist of complete electrical installations for commercial and residential buildings, industrial complexes, warehouses and luxury villas.

We have developed our clientele over a short time span by delivering quality services at a competitive price and positively rewarding experience to our client.

Our reputation for quality has been achieved through our ability to deliver quality services in an efficient and cost effective way within the ever changing working environment and client.

Chairman's Message

*W*e at High Voltage Electrical Contracting L.L.C. aim to raise & improve the quality of services provided to the citizens of Sharjah & the United Arab Emirates, and to carry on the vision & the directions of H.H Sheikh Dr. Sultan Bin Mohammed Al Qasimi the member of the Supreme Council – ruler of Sharjah along with his brothers and the rulers of the Emirates.

Those visions were the trigger to set our goals & ambitions. Based on this, we provide our best in the work field to achieve the expectations & the visions of the Highness and the rulers.

The key to our success is the dedication of our staff, and their total commitment along with the effort and the hard work of the workforce.

We strive to fully undertake our social responsibility, building a green and sustainable business, leading as an example of an utility business, and ultimately achieving the “Vision of Sharjah”.

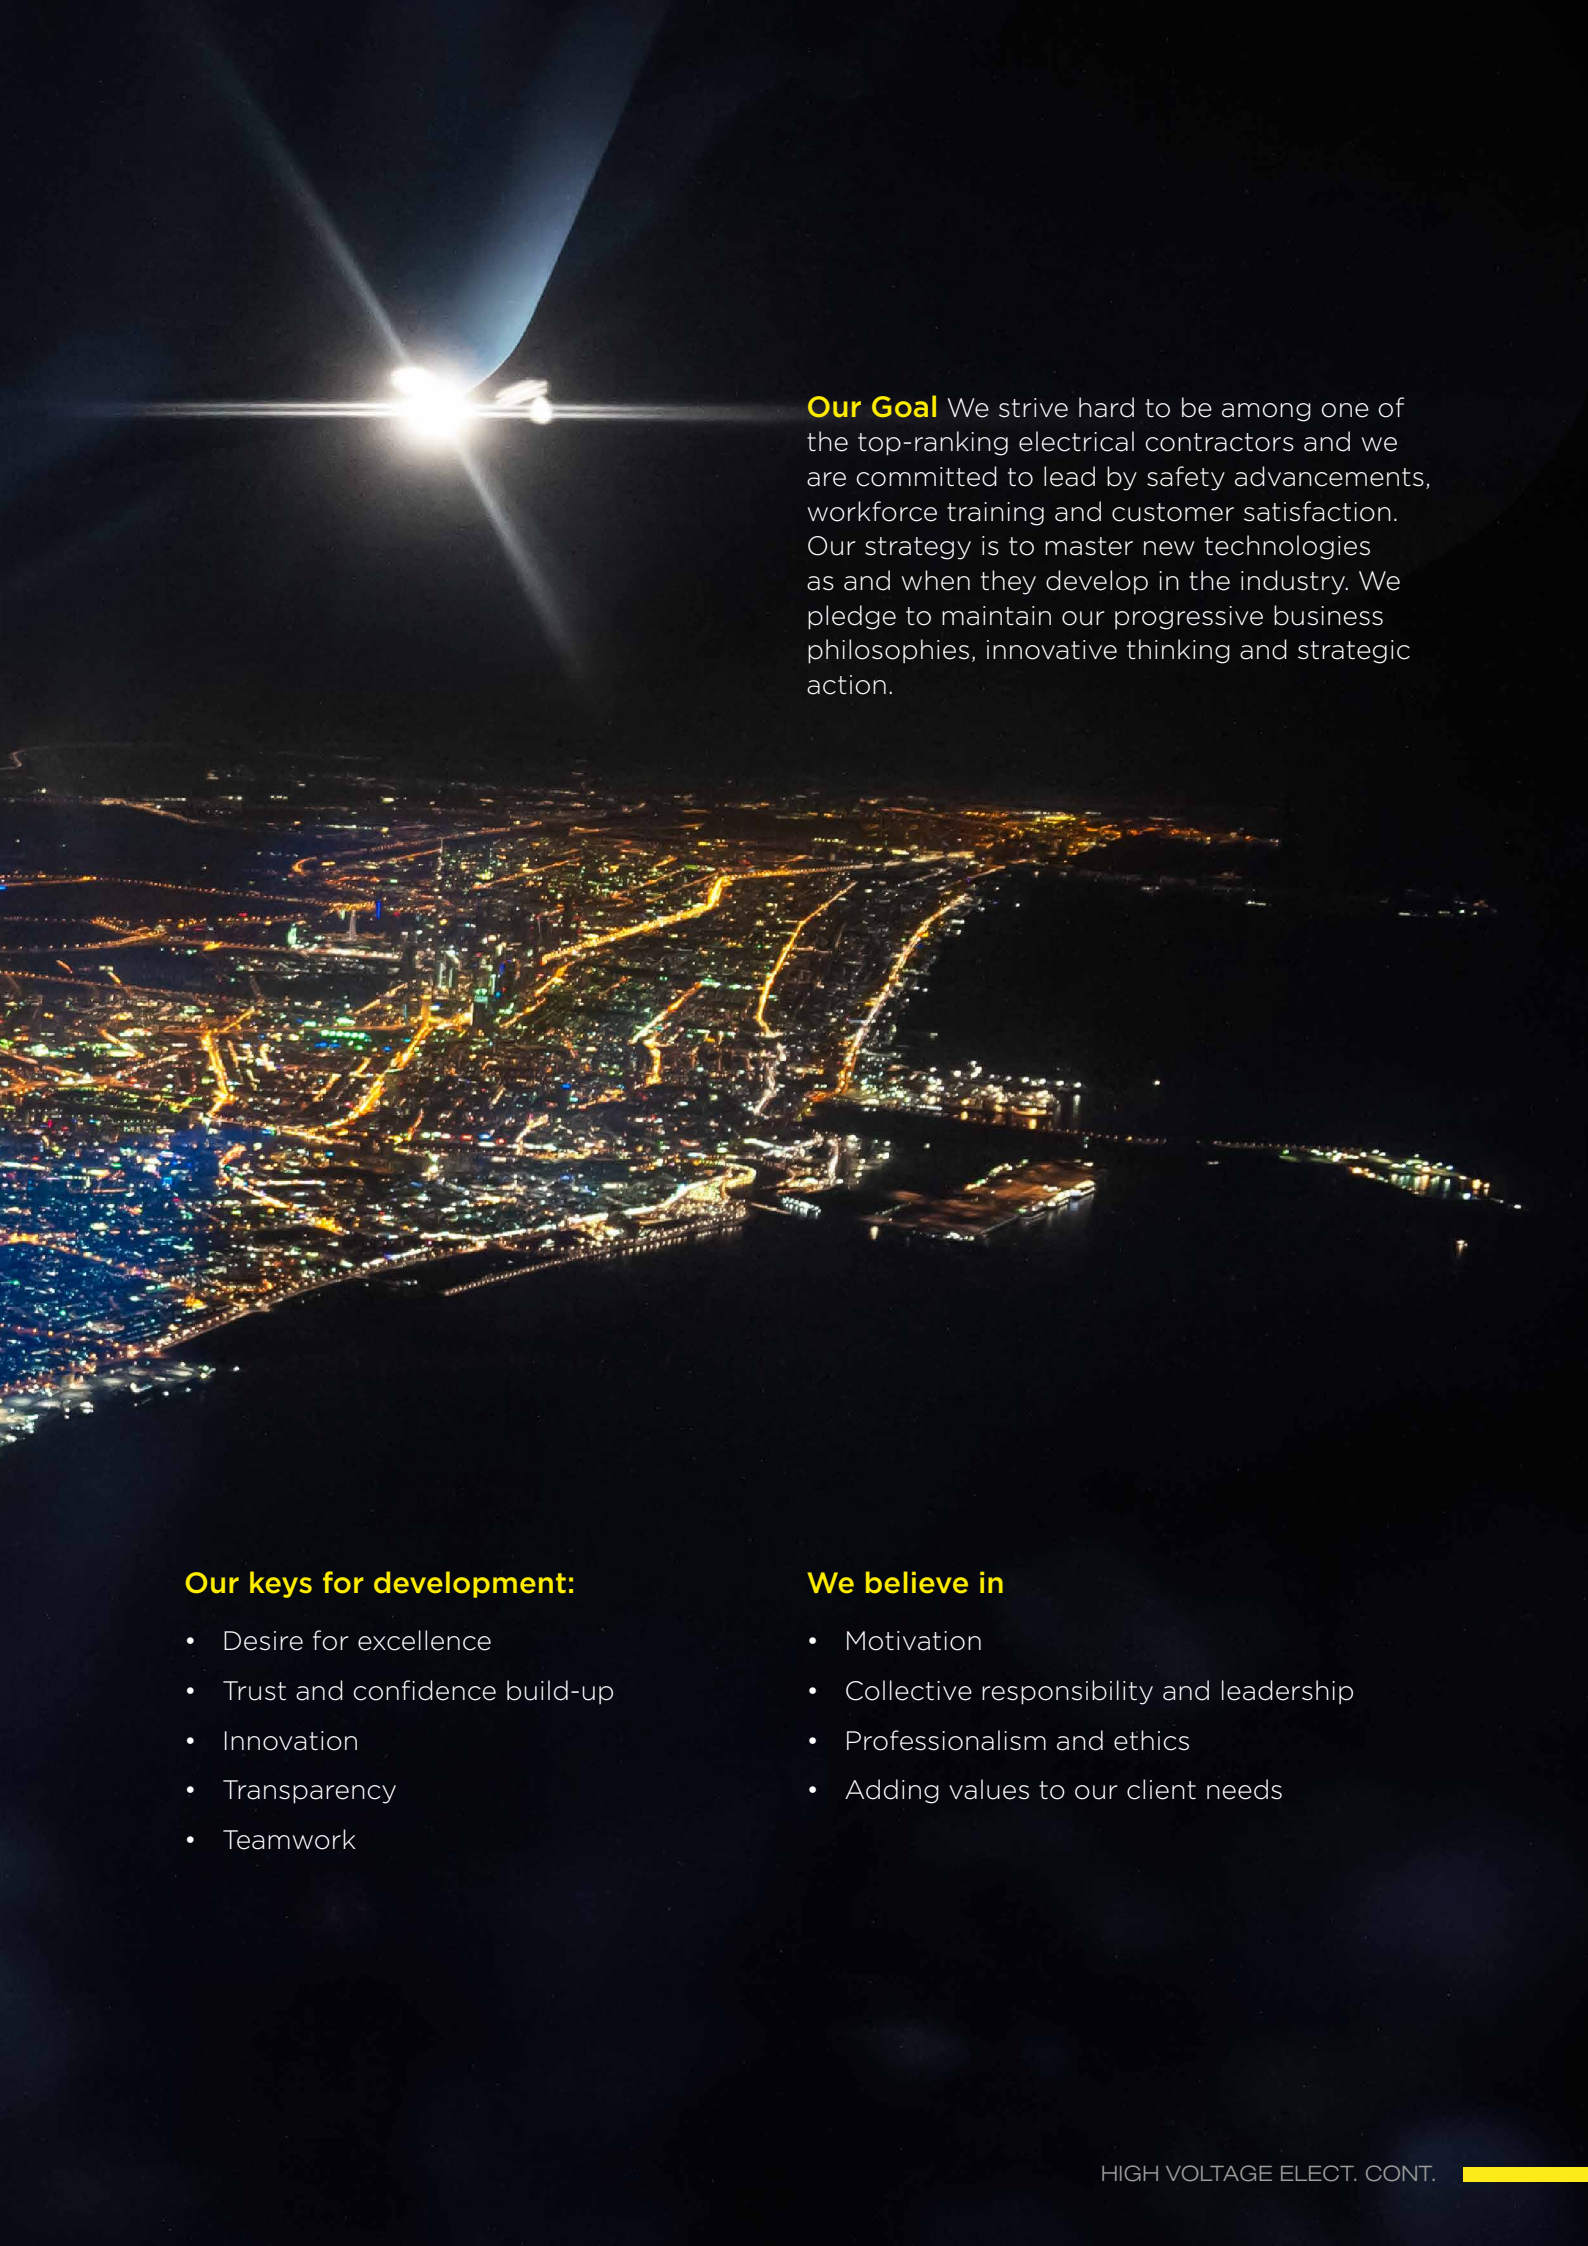

H.E Sheikh Mohammed Bin Humaid Bin Mohammed Saqr Al Qasimi
Chairman

Our Mission & Vision

Our Mission is to achieve the reputation of a quality, high standard and reliable solution & service provider company.

Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation - sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

Our Goal We strive hard to be among one of the top-ranking electrical contractors and we are committed to lead by safety advancements, workforce training and customer satisfaction. Our strategy is to master new technologies as and when they develop in the industry. We pledge to maintain our progressive business philosophies, innovative thinking and strategic action.

Our keys for development:

- Desire for excellence
- Trust and confidence build-up
- Innovation
- Transparency
- Teamwork

We believe in

- Motivation
- Collective responsibility and leadership

- Adding values to our client needs

Shaping the future Energy –

Power Generation, Transmission and Distribution

Our Journey

Our Promoters and key management professionals are having vast industry experience in the energy, utilities and contracting industries in UAE.

We employ personnels who are essentially team players and those who have in-built team spirit with colleagues and personnels with integrity, work ethics, win-win solutions. People who care passionately about the company are guaranteed bright prospects and long term prosperity.

We work with our business partners for further enhancing the market share. Our efforts shall make us a leading player in the Energy & Utility.

About the Founder

H.H Sheikh Mohammed Bin Humaid Bin Mohammed Bin Saqr Al Qasimi, holder of Bachelor Degree in Public Administration from University of Sharjah is holding the position of Head of Data Section in Sharjah Government Supreme Committee for Digital Transformation.

He is the member of Sharjah Child Friendly City Committee and possess several years managerial experience in different sectors.

His urge to serve the community by offering quality services to the citizens of the country resulted in the trusted name called High Voltage Electrical Contracting L.L.C.

Quality

High Voltage places high emphasis on constantly improving its processes and services to exceed the requirements of clients. We follow the principles of process management and continues improvements.

Also ensure compliance with statutory, regulatory and safety requirements. Endeavour to maximize client satisfaction at all times.

Facilities

We are equipped with a comprehensive range of latest state-of-the-art equipment's, which make the company one of the most efficient, advanced and sophisticated company. With these facilities we are able to deliver quality services to our clients within the time frame.

Our commitment towards Safety

We are providing training to employees on regular basis as per their role to meet the safety and quality standards.

Project-in-charge ensure that all works are executed as per the approved method statement at all the stages of project execution.

We are keen on providing well maintained and safe equipment's not only to comply with the applicable legal, federal and statutory requirements but also to effectively manage the risk associated with electrical works.

Service Portfolio

HV & LV Cable Laying, Cable Jointing & Termination

We have experienced engineers and cable jointers. Cable laying, jointing and termination activities are carried out with the help of suitable winches, cable trailers and rollers of adequate capacity. We always ensure that all works are controlled and monitored at all levels by qualified engineers. Our well trained engineers and technicians are keen on following the standard guidelines for cable laying and allied activities.

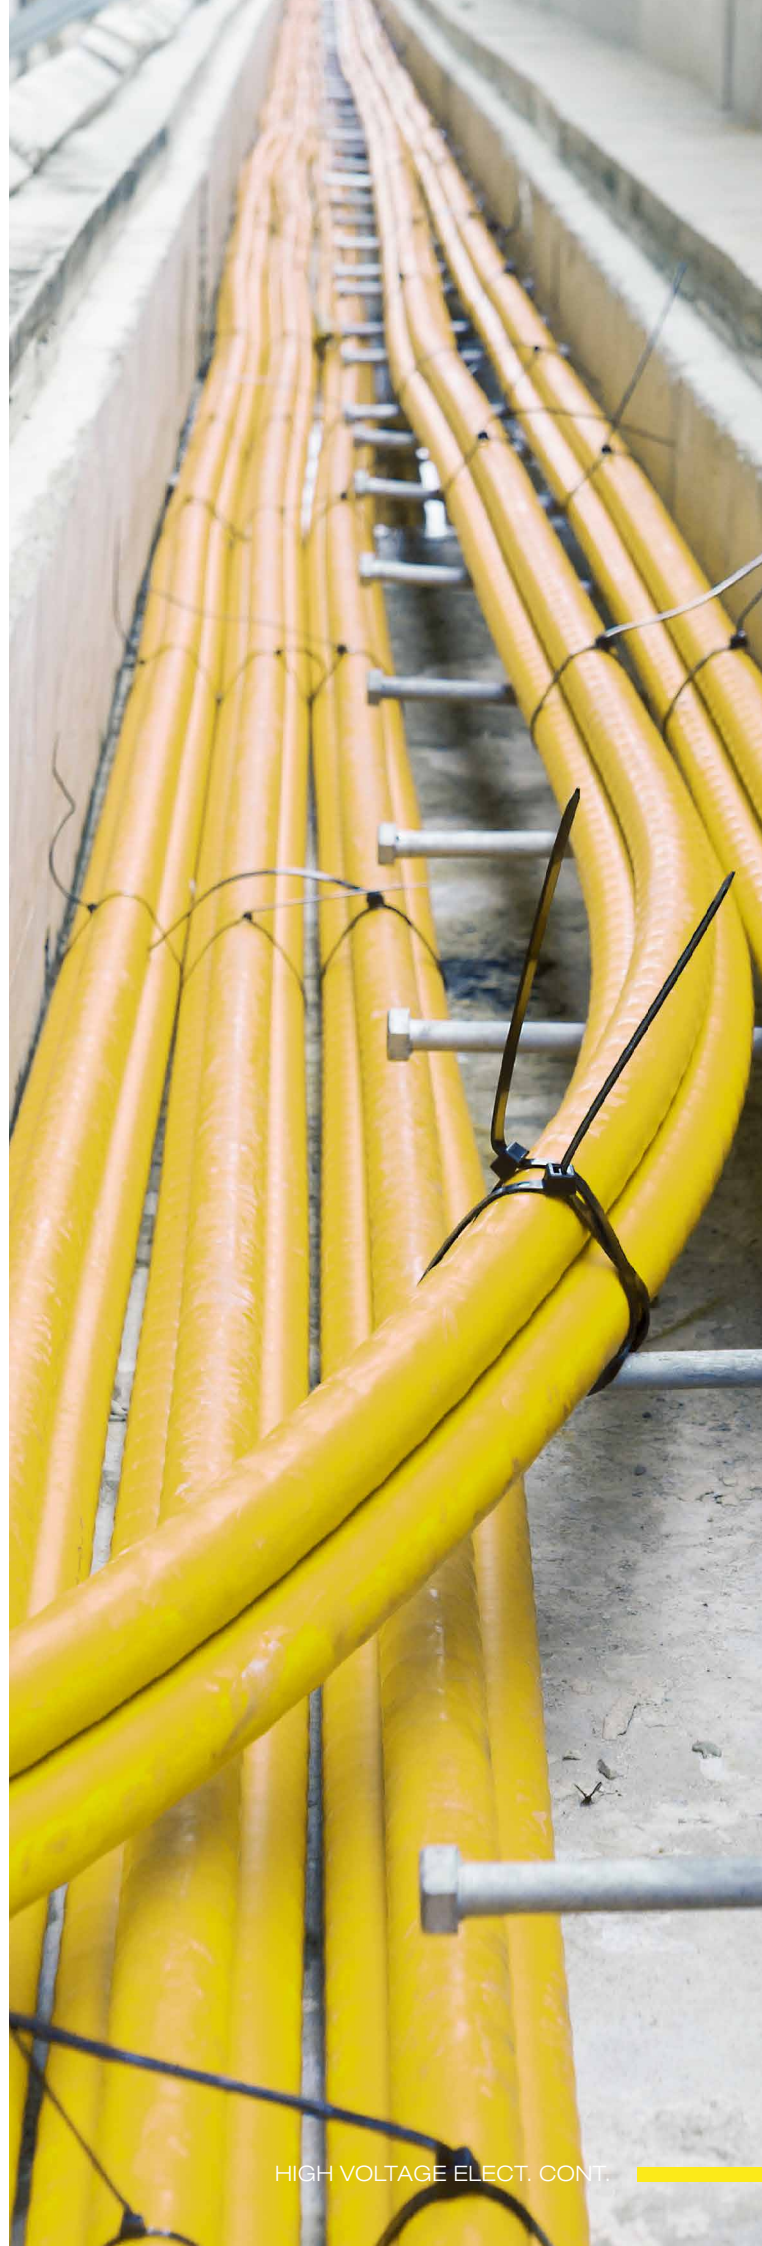

Substation Installation Services

We undertake the installation of 11kV substations. We have trained engineers, supervisors and skilled technicians to undertake the installation works and we are equipped with sophisticated tools and equipment's. Our area of expertise includes installation of Power & Distribution Transformers, Switchgears, Control and Protection Panels.

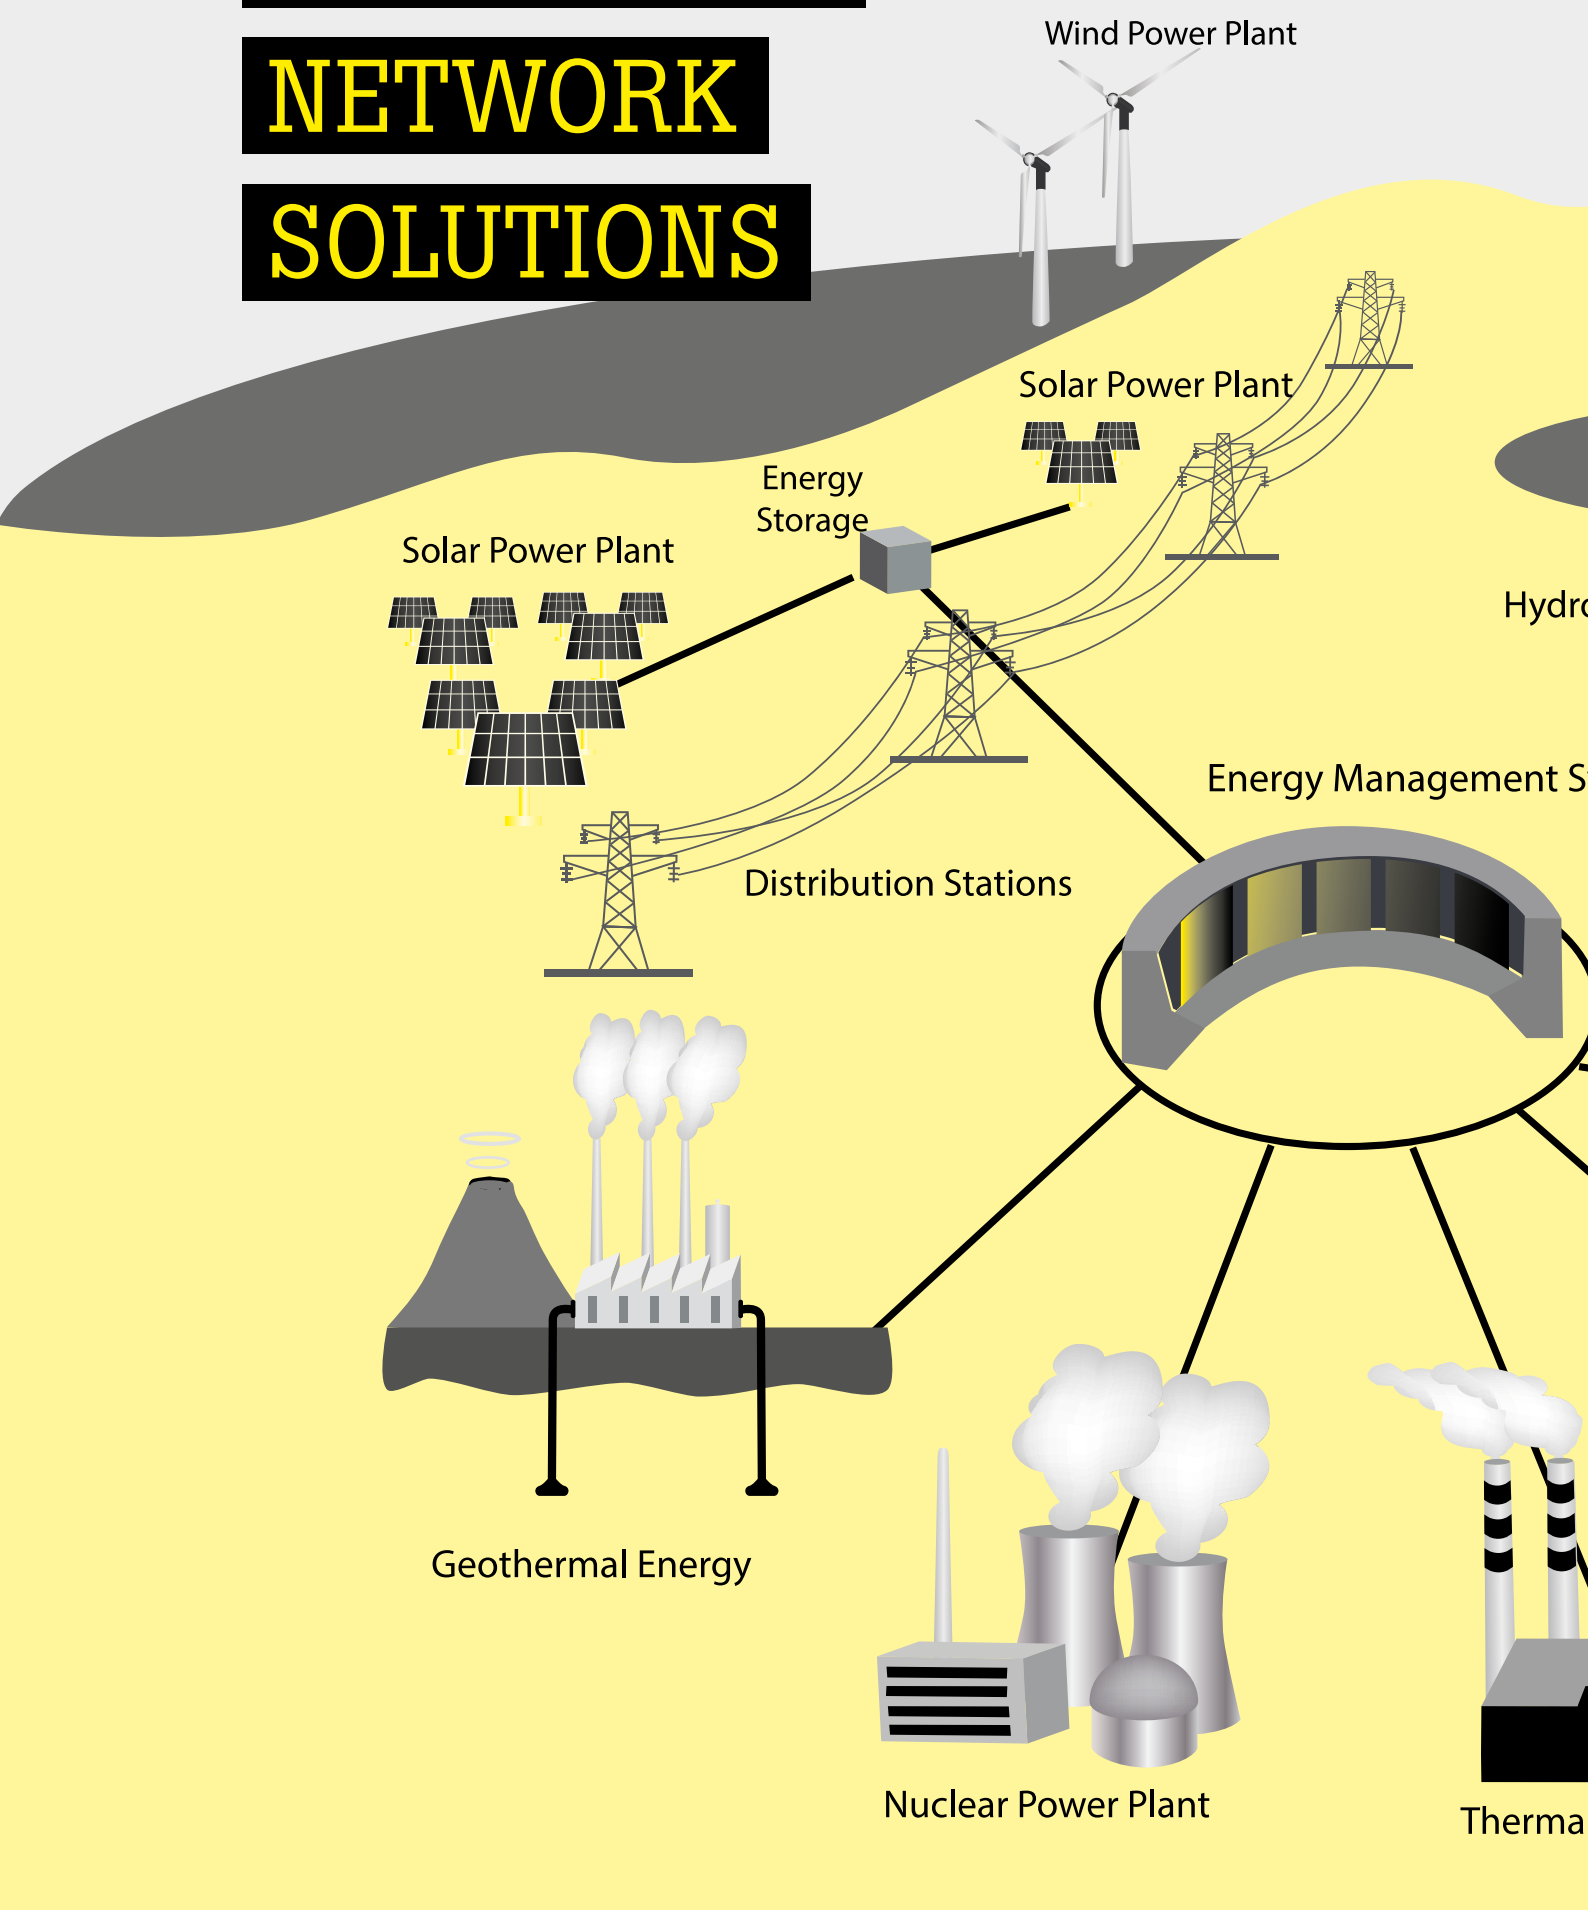

MEP Services

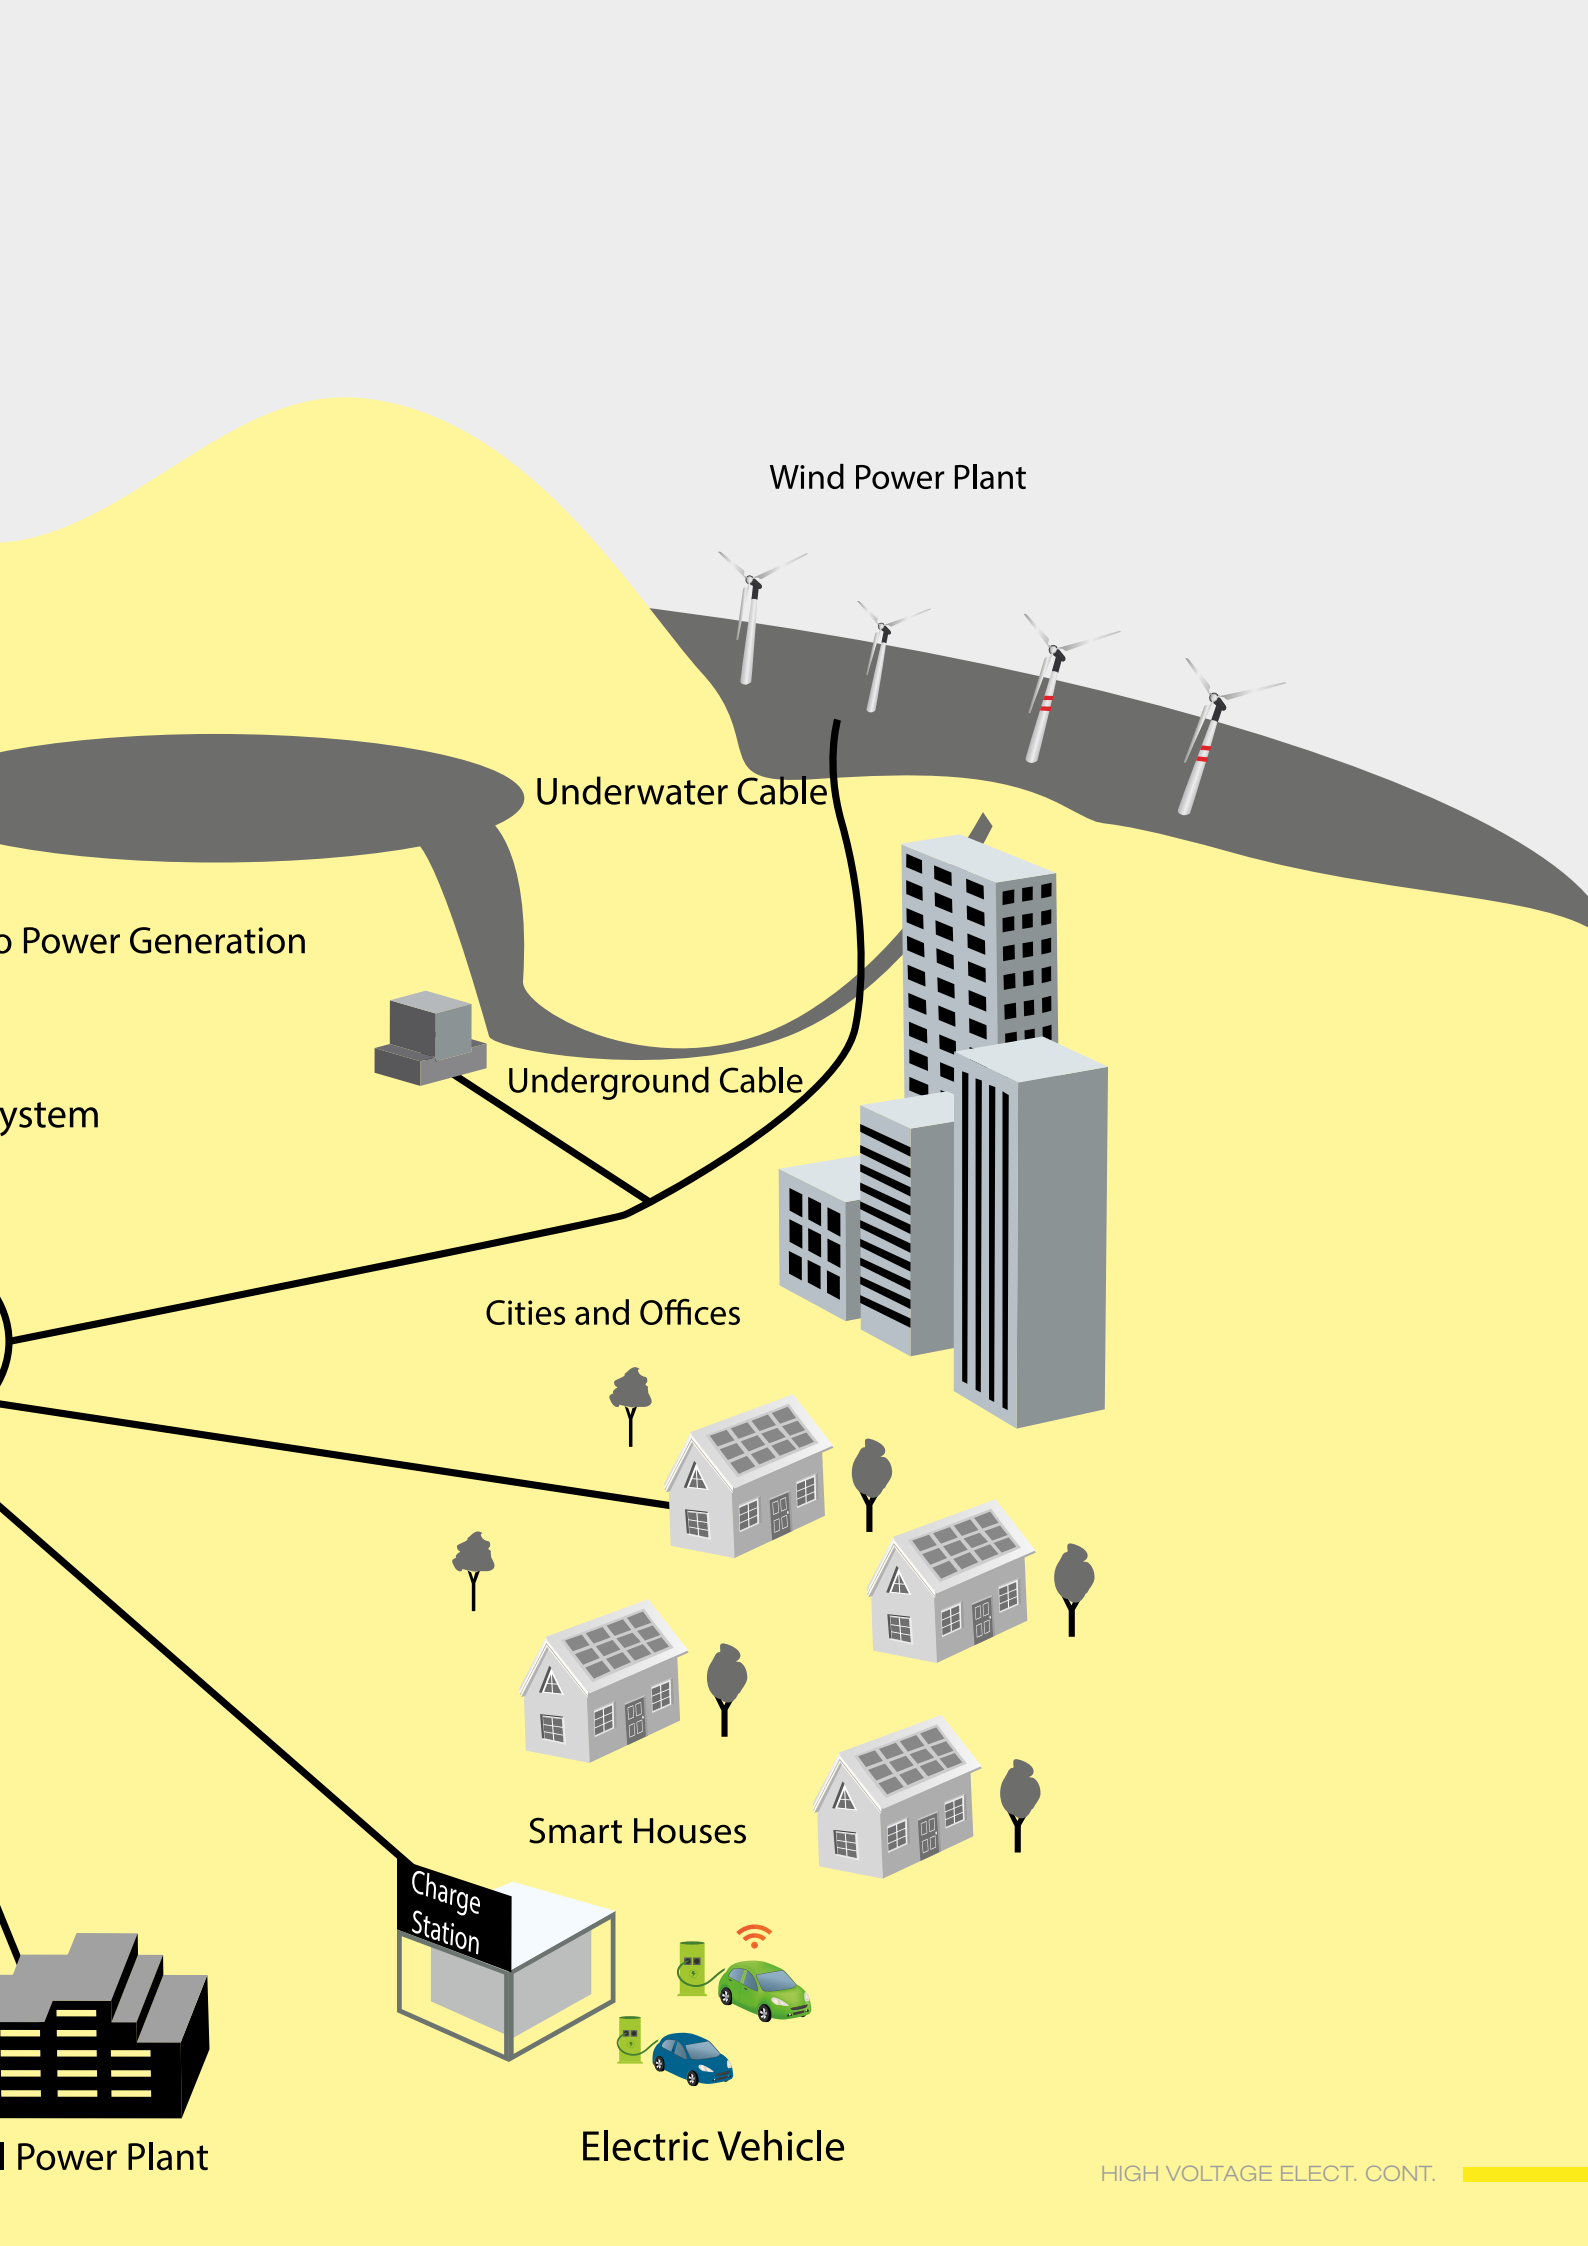

We offer consolidated MEP services which consist of complete electrical installations for commercial & residential buildings, industrial complexes, warehouses and luxury villas for the entire UAE. Our service portfolio also include firefighting/fire alarm installations, specialized internal installations like fire and emergency lighting systems and security systems.

Our technical team has the experience and knowledge to address all the requirements of client without compromising the quality of work.
